Watchmaking & jewellery

Louis BELET excels in manufacturing customised end mills for the high end watchmaking market. Our tool quality and high reactivity enabled us to become a benchmark for the leading watchmaking brands.

Medical technologies

Because of our know how and experience over more than half a century in customised tools, Louis BELET has become an essential partner for the leading names in the medical industry.

Aeronautic industry

Bélet offers several tools designed for machining aluminium, titanium, inconel and alloyed steels. In addition, a specific set of tools has been developed for machining composite materials.

Telephony / Electronics

Bélet's standard and custom end mills are used by leading companies in this sector. Thanks to our high end CNC machines, we are able to produce these tools in large quantities.

Quality : Swiss made

We do not compromise when it comes to the quality of our products. All our tools offer the same quality regardless of whether they are of standard or special design.

Inspection

Louis Belet AG has the latest technical means and resources for testing the tools.

We are in a position to prepare test certificates in accordance with DIN EN 10204: 2005-01.

Digital Optical Systems

Digital measurement and profile comparisons directly from the CAD file

Automatic computer-aided controller

This equipment can generate test reports on request

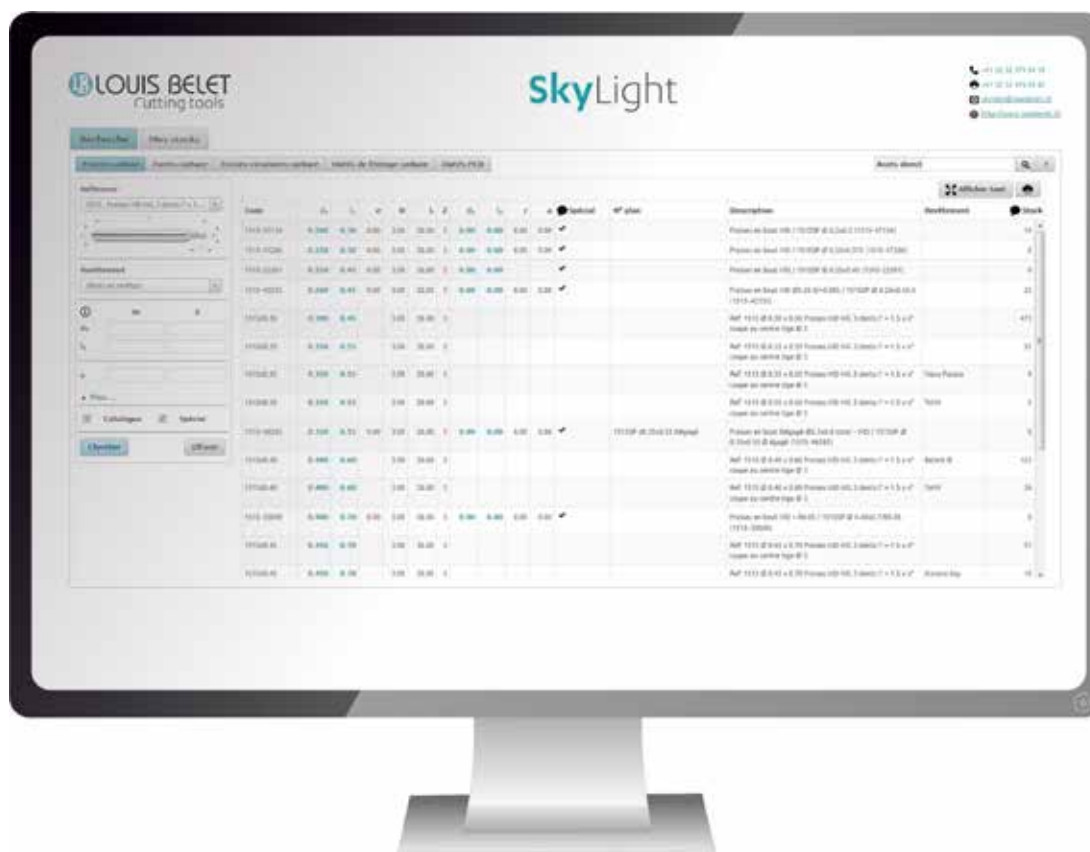

Diameter with the help of laser measurement

Dimensions in micrometres (μm) of milling and drilling before and after machining

3D measuring instruments

Optical measurement system optimised for 3D measurements

SKYLIGHT : Give a look at our inventory !

The skylight module enables you to look at the stock (Bélet's one or yours dedicated stock) of standard and special tools. You can search by tool type and size or by reference and diameter.

For any price request, please contact us indicating the item code of the tools. For more information about the use of Skylight: info@louisbelet.ch

Access Skylight :

> <http://www.louisbelet.ch/skylight>

Bélet tools are made to last!

Most tools can be reconditioned, either if manufactured by Bélet or by our competitors. For instance :

- ▶ End mills in solid carbide or HSS, from \varnothing 6 mm
- ▶ Drills in solid carbide or HSS
- ▶ Circular cutters in carbide or HSS
- ▶ Cutting tools in PCD: mills, drills, circular saws, etc...
- ▶ Inserts and turning tools in carbide or PCD
- ▶ Form cutters in solid carbide, PCD or HSS

Reconditioning allows the renewal of your tool at low cost and within a short timeframe. Depending on the dimensions of the tools, of the cost of a new tool or on the condition of the used tools, it may happen that reconditioning is not possible or judicious. In this case, our specialists will contact you to propose an alternative. Reconditioned tools can also be coated again.

Reprofiling

Profiled tools with constant or logarithmic relief can also be reconditioned on our specialized machines. Form tools with a logarithmic profile have the advantage that they can be resharpen while keeping their exact original profile.

The company

Mr. Louis Bélet has founded the company in 1948. Since then we have gained a solid know-how in manufacturing cutting tools. Nowadays, the company is run by the two grandchildren of the founder, Mrs Roxane Piquerez and Mr Arnaud Maître.

The quest of excellence

Bélet's spirit relies on the quest of excellence. In all our activities, we constantly focus on finding the best solutions, for our customers and our employees. This applies to the following areas :

Quality

- ▶ No compromise is tolerated on the quality of our products. All of our tools, either standard or special, have the same quality level.

Service

- ▶ The customer first! We focus on delivering the best service to any customer
- ▶ Reactivity is a key point for us: our goal is to give a prompt and accurate feedback to any request we get from our customers.

Practices

- ▶ We apply an employee loyalty program. This is a key point to keep and develop our know-how.
- ▶ We make sure that our production processes are environment friendly. This is followed through our ISO 14001 certification.

Economical performance

- ▶ Healthy finance is obviously a key point. We focus on being independant of any backers. All our machines and equipment are financed by our own equity.

Quality and environmental management are testified by our ISO 9001:2008 and ISO 14001:2004 certifications.

General terms & conditions

Prices

The prices are per piece and for delivery ex works Vendlincourt, Switzerland, without packaging, postage, taxes (VAT), custom fees nor insurance. Price modifications are reserved. Minimum amount by order: CHF 50.-

Special tools

The tools manufactured according to special requests are invoiced on the basis of a quotation or, unless otherwise stated in the order confirmation, on the basis of the result. Louis Bélet SA reserves the right to deliver up to $\pm 10\%$ of the number of ordered parts, but at least one part. Invoicing of such over-/under-quantities is based on the agreed price in the original order.

Deliveries

Ex-works Vendlincourt, Switzerland, with all the risks being passed to the ordering party upon dispatch of the relevant goods. The postage and packaging costs are invoiced.

The delivery deadlines are given without engagement. They are evaluated as accurately as possible and are respected as well as possible. For the standard tools of the catalogue, the deliveries of pieces in stock are carried out the day of order, as far as possible. The delivery deadlines for special tools are communicated upon request. Unforeseeable delays do not authorize the customer to cancel the order. In the case of a delay, the purchaser is not entitled to compensation or other benefits.

Control certificates

Certificates for quality controls may be provided upon request and will be invoiced.

Payment terms

The invoices are payable as a net amount within 30 days, as from the date of the invoice, in Swiss francs, except another convention. The terms of payment and delivery stipulated on the orders of our customers and not corresponding to ours are recognized by us only through a specific written confirmation.

The goods delivered shall remain the property of Louis Bélet SA until they have been paid for in full.

Machining parameters

The cutting parameters and technical informations provided in this catalogue are indicative and do not engage us. These parameters are to be adapted according to the type of work, to the part to be manufactured, to the machine, the attachments, the layings and the lubricant.

Complaints

The complaints must reach us in writing within 8 days after reception of the goods. Any part presenting a defect will be replaced or credited as soon as possible. This guarantee covers only the replacement of the tool. No other compensation could be required. The tools defective following a normal or an excessive usage will not be replaced for free.

Liability for defects

The purchaser shall only be entitled to the replacement or repair of defective goods. The purchaser is not entitled to further claims, especially for compensation for damage or consequential damage. In no case can claims be considered by the purchaser for compensation for damage which is not caused to the object itself, e.g. loss of production, inability to use the goods, loss of contracts, loss of profit and other direct or indirect damage.

Special terms

The standard tools are manufactured according to drawings designed by Louis Bélet SA. The illustrations as well as the technical data appearing in the present catalogue do not engage us. Modifications in the geometries of the cutting zones, in the quality of the raw material like in any other technical data may happen without prior notice. For special tools, we manufacture according to a customer's drawing or to a drawing designed by Louis Bélet SA but validated by the customer. The tool production is launched based on the latest drawing in our possession. Any subsequent modification of the drawing is subject to be charged to the customer.

Jurisdiction

The Swiss law shall apply. Place of jurisdiction: CH - 2900 Porrentruy (Jura).
